

GRAIN APP GENERAL

Import from Dataväxt

USER INSTRUCTIONS

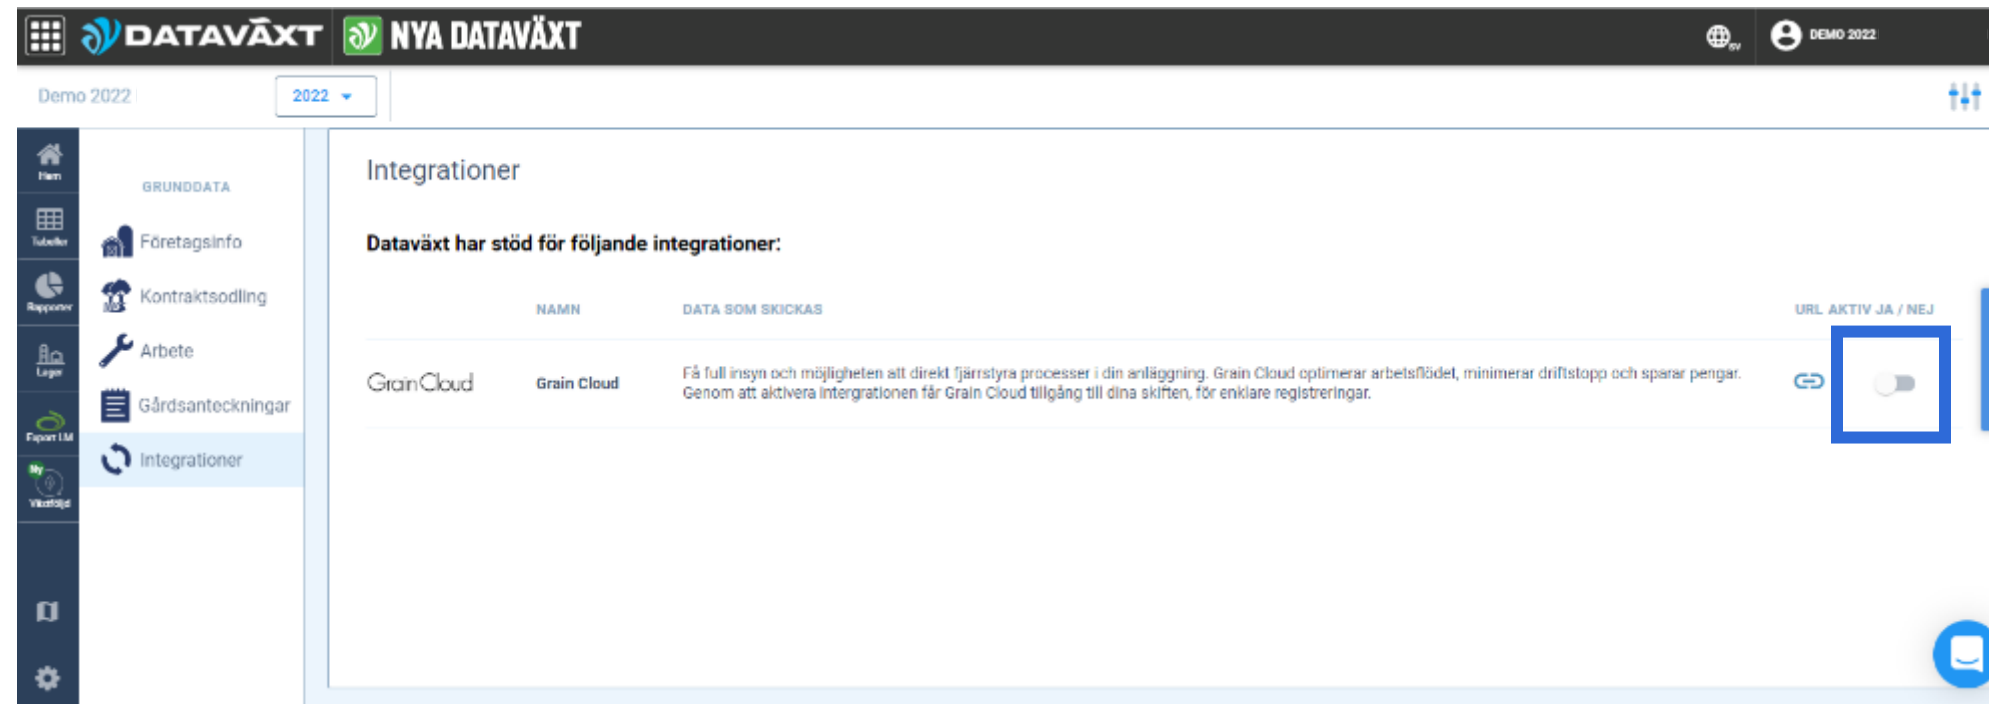

Import from Dataväxt

Recommended to do after changing the harvest year.

Import from Dataväxt

1. Approve data sharing in Nya Dataväxt.

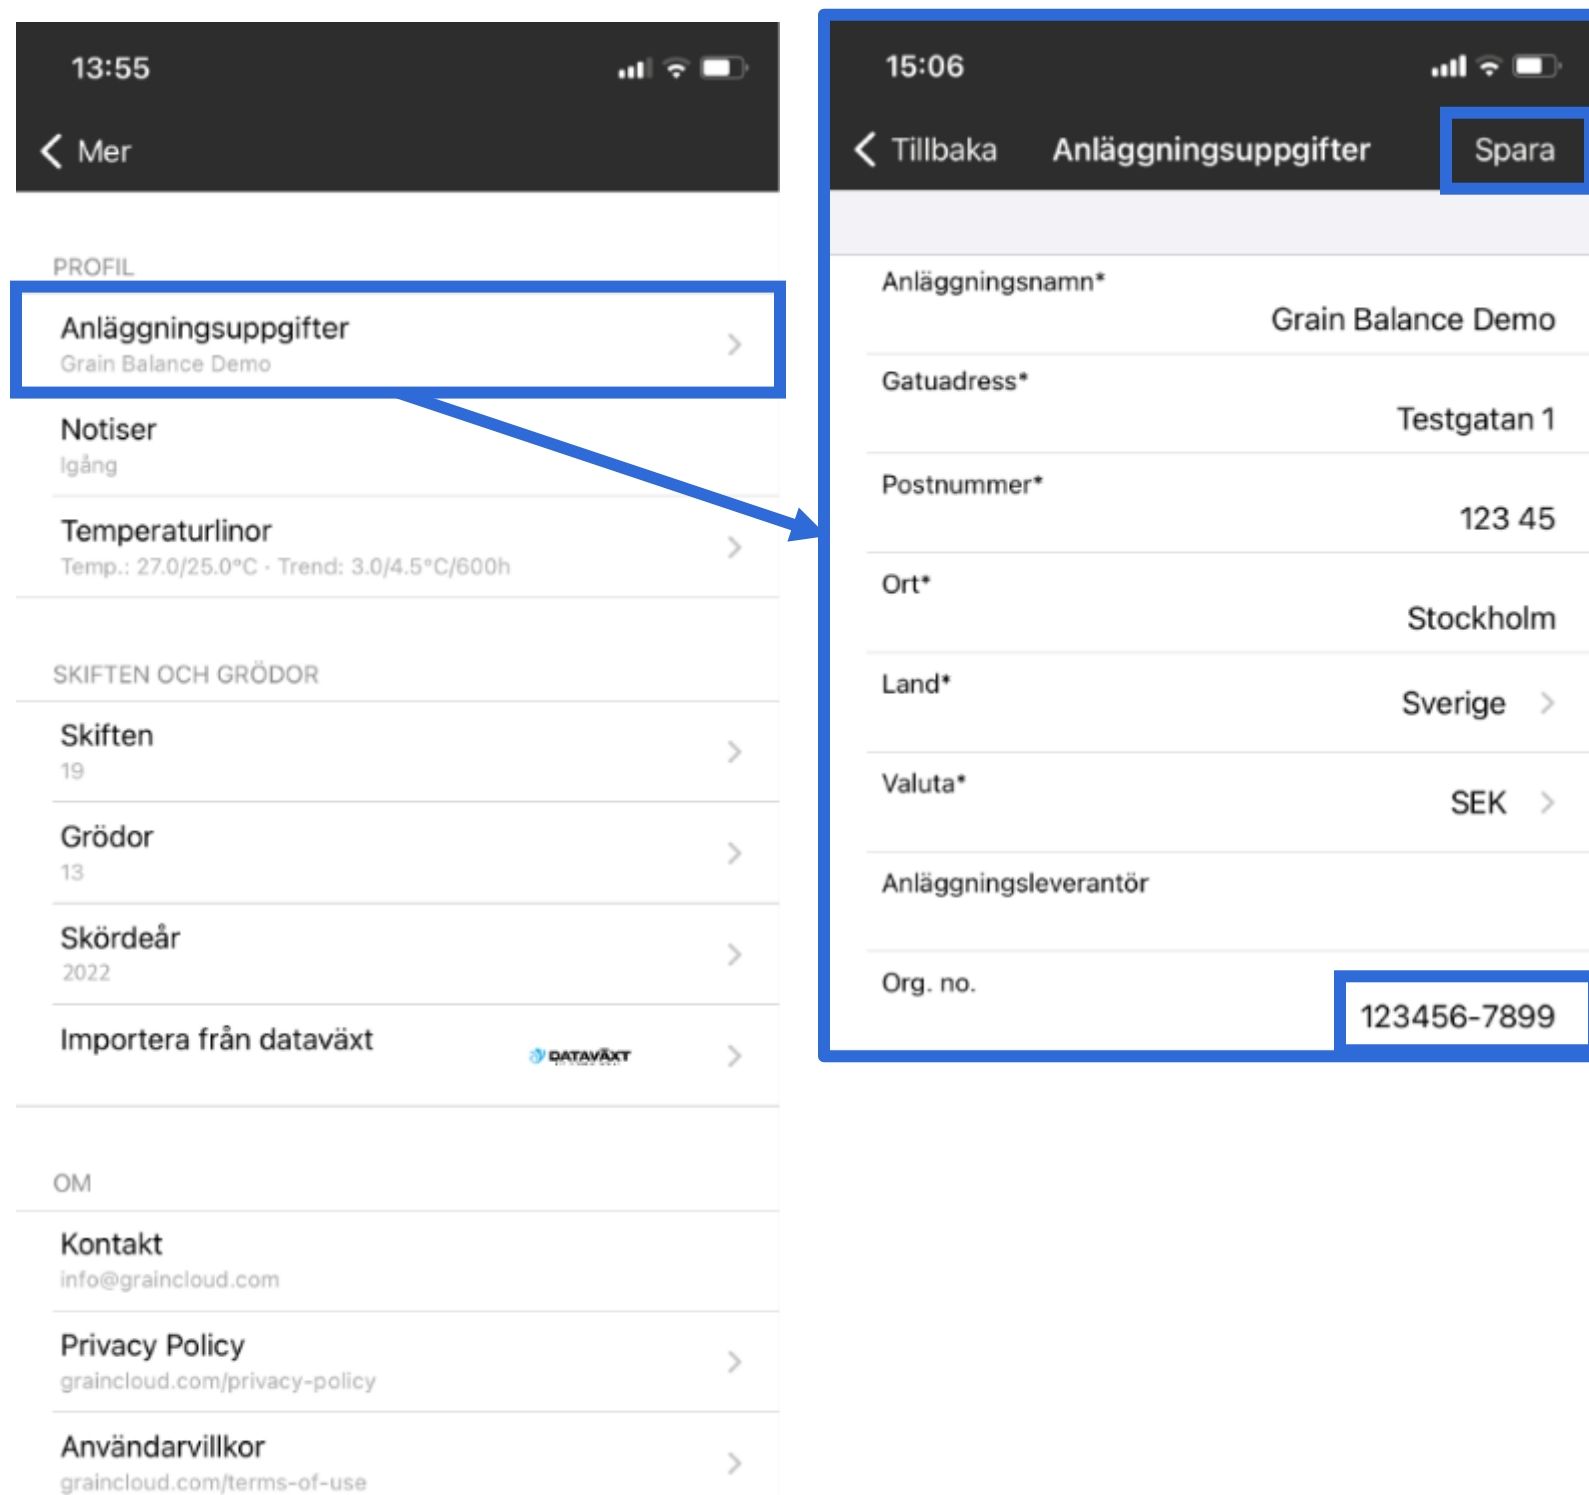

Note!

If you have not approved data sharing in Nya Dataväxt, the import in Grain App will not be successful.

Grain Cloud

Import from Dataväxt

2. Click on Settings in Grain App.
3. Click on Facility information.
4. Enter the Organization number.
5. Click Save.

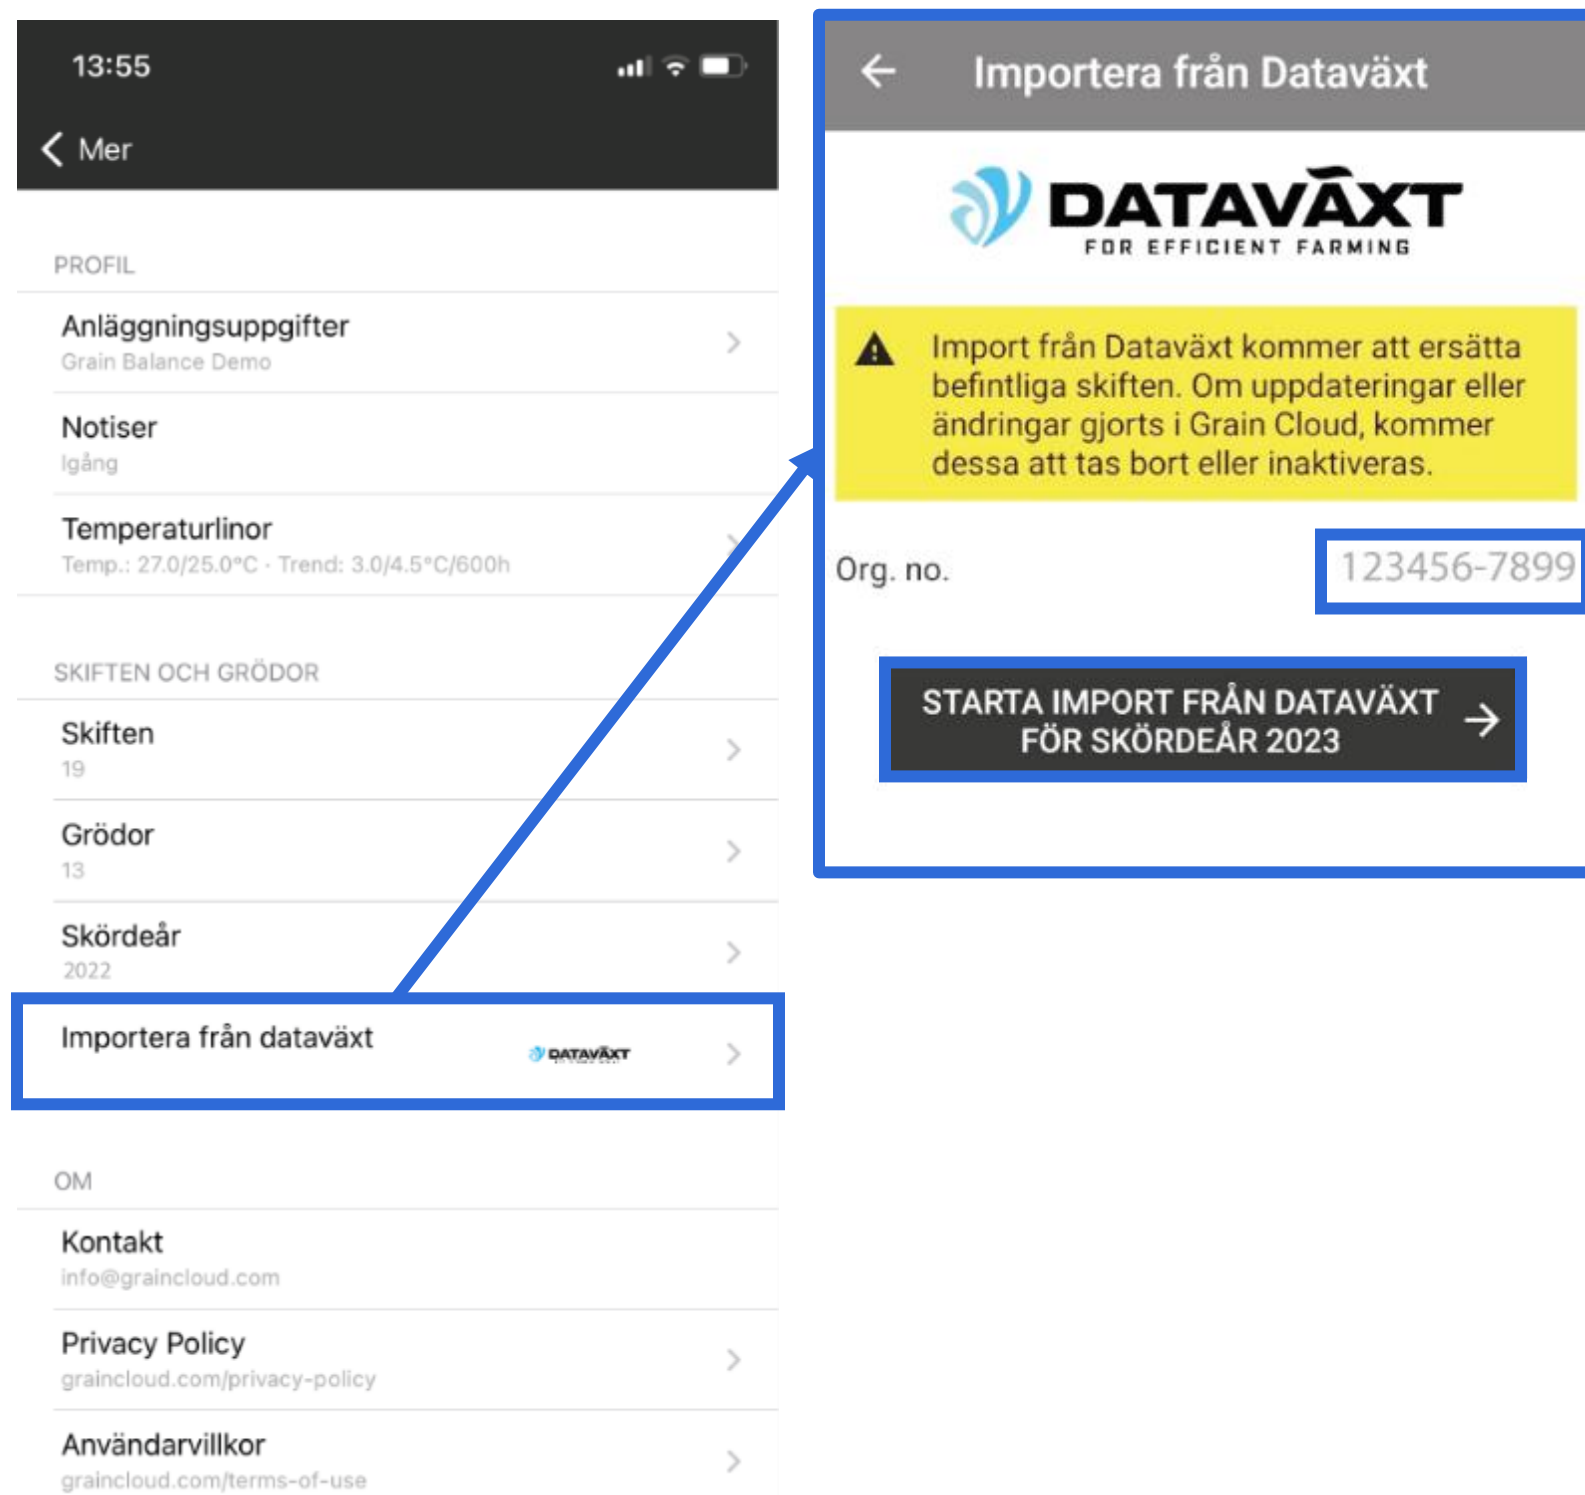

Note!

If you have not entered the same organization number in Grain App as in Nya Dataväxt, the import in Grain App will not be successful.

GrainCloud

Import from Dataväxt

6. Click on Settings in Grain App.
7. Click on Import from Dataväxt.
8. Check that the organization number is the same as in Nya Dataväxt.
9. Click on the button "START IMPORT FROM DATAVÄXT FOR HARVEST YEAR 20XX".

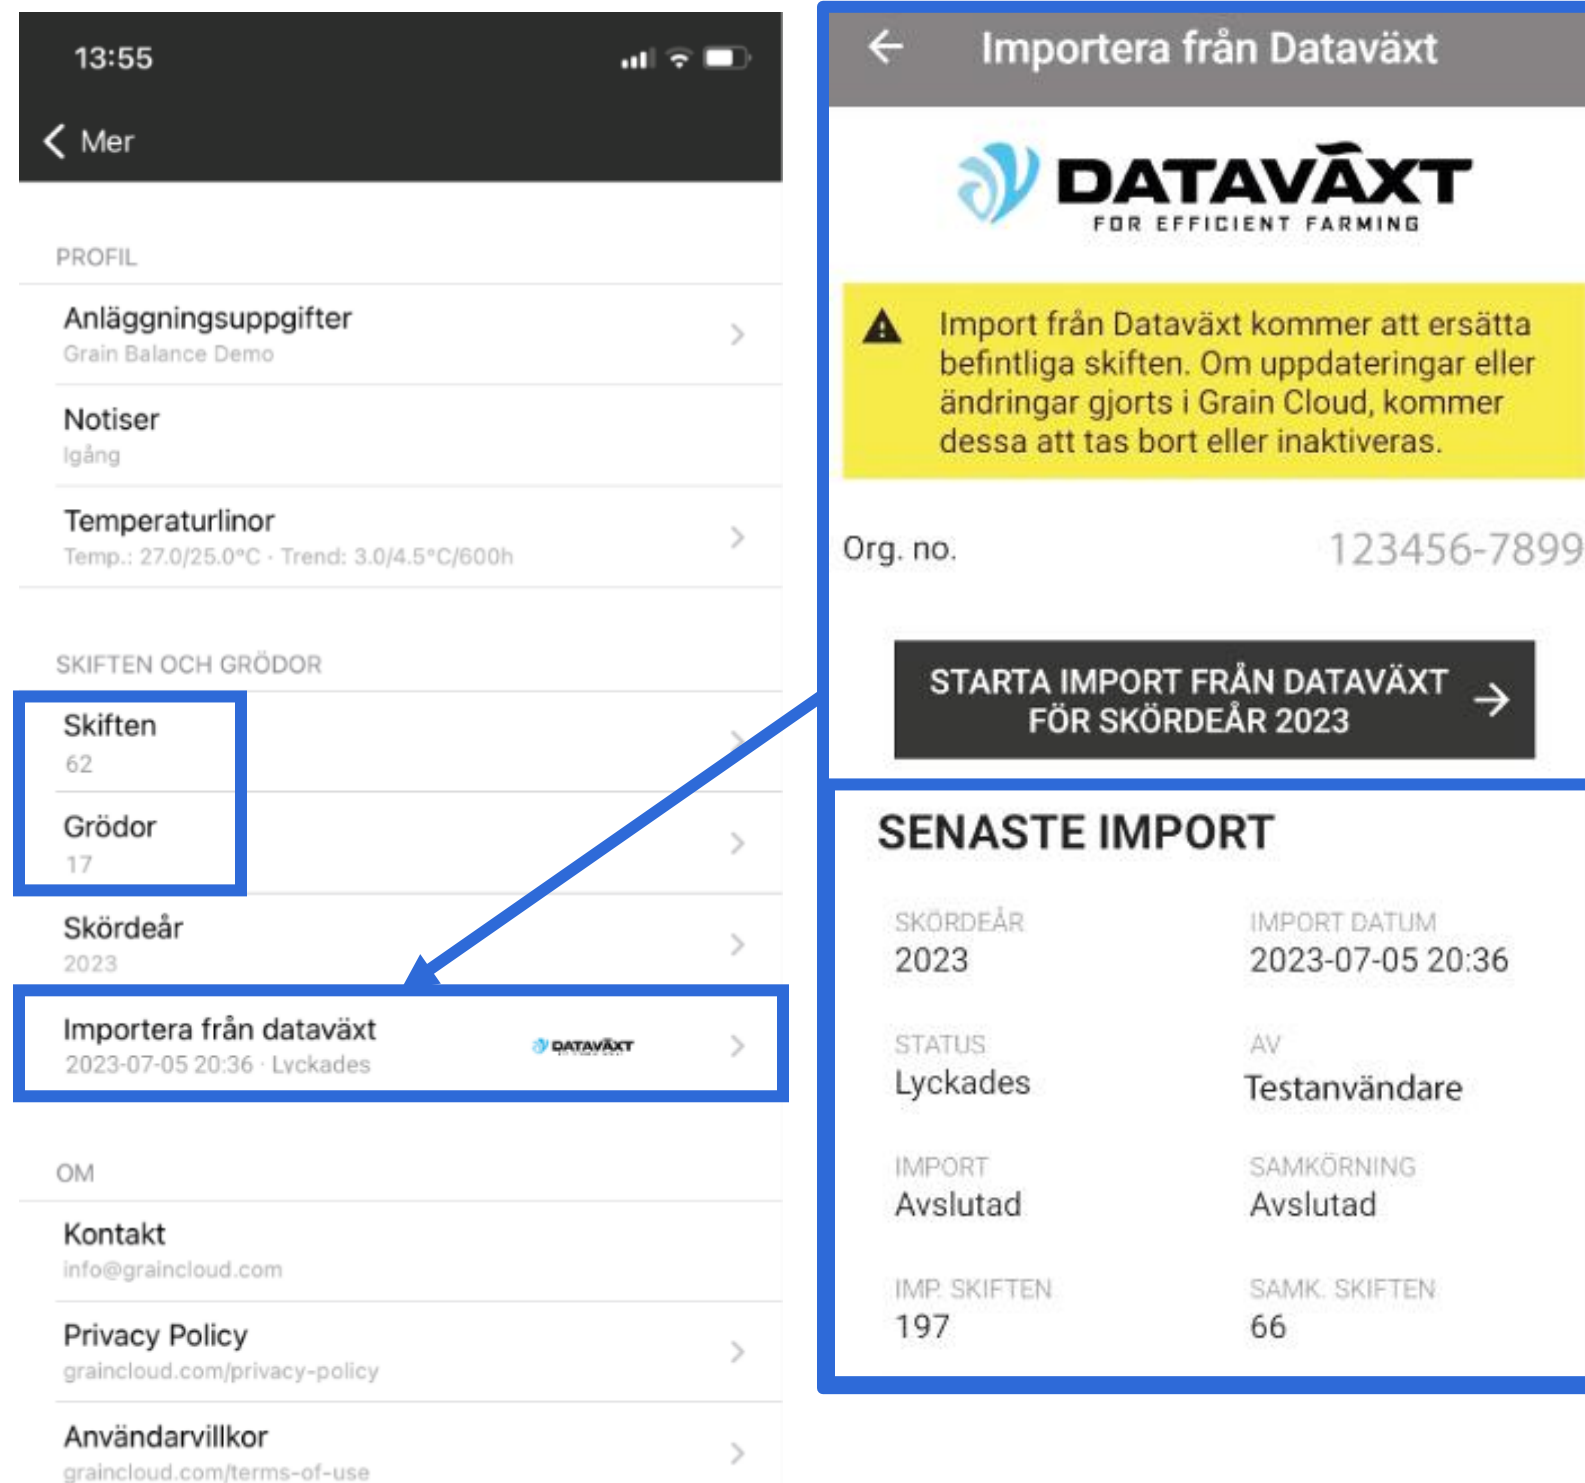

Note!

Import from Dataväxt replaces all existing fields. If you have not entered the same organization number in Grain App as in Nya Dataväxt, the import in Grain App will not be successful. See previous page how to enter organization number In Grain App.

Grain Cloud

Import from Dataväxt

10. A log is displayed after successful import.
11. Date, Time and Status of last import are displayed under Settings.
12. Update of number of Fields and Crops appears under Settings.

Note!

Import from Dataväxt in Grain App can be redone at any time if something changes in New Dataväxt.

Best of luck!
